

PUZZI 10/1

SUSTAINABILITY INFORMATION

The spray-extraction cleaner Puzzi 10/1 is an efficient cleaning machine for carpet areas and upholstery. Equipped with upholstery nozzle and floor nozzle, it is particularly suited to hygienic and effective cleaning of small to medium surfaces. With 1 bar spray pressure, the spray extraction machine ensures gentle, deep cleaning of textiled surfaces and delivers impressive results, especially when cleaning carpets and upholstery. Thanks to the narrow floor nozzle, the machine is optimally suited for use in confined spaces. The flexible suction lips allow cluttered areas to be cleaned easily. The spray extraction machine is fitted with an integrated cable hook and a holder for a handle with trigger and suction pipe.

Technical data

Voltage	V / Ph / Hz	220-240 / 1 / 50
Air flow	l/s	74
Vacuum	mbar	254
Turbine power consumption	W	1,200
Pump power consumption	W	40
Fresh water tank	l	10
Dirty water tank	l	9
Sound-pressure level	dB(A)	71
Cable length	m	7.5
Min. service life	h	500
Place of production	CER Cleaning Equipment S.R.L. 115300 Curtea de Argeş Romania

Kärcher sustainability strategy

Kärcher grows sustainably while implementing strong responses to environmental & social challenges into our core business. Therefore Kärcher supports the United Nations Sustainable Development Goals (SDGs) and has summarized its sustainability strategy in three major goals:

Zero Emissions

Since 2021

- **Factories** across the world have been using green electricity for production

By 2025

- **Scope 1 and scope 2** CO₂ emissions will be reduced by 21%
- **Scope 3** emissions and the carbon footprint of products will be transparent

Reduce, Reuse, Recycle

Since 2020

- Reduction of **ocean plastic**

By 2025

- Sustainably optimised **packaging**
- Products with up to 50% **recycled plastic**
- Pilot production without **plastic waste**
- Sustainability as part of **new business models**

Social Hero

By 2025

- Social commitment focused on **preserving values**
- Proactive **supplier risk management system** for sustainability

ISO standards

ISO 50001

Energy management: continuous improvement of performance, efficiency, safety, application and consumption.

ISO 14001

Continuous improvement by reducing waste and CO₂ emissions, saving water, energy and the use of materials.

ISO 9001

Continuous improvement of process management and customer satisfaction.

Kärcher's initiatives and cooperations

Awards

Kärcher has won the 2025 German Sustainability Award, making it one of the pioneers in sustainability. The independent jury honored the company twice in the categories "Household Appliances" and "Mechanical Engineering" for its sustainable solutions. Kärcher is thus receiving the renowned prize for the second time after 2022, making it one of the very few companies in Germany to have been honored twice.
